B-1040 Brussels

30 June 2016

Dear Mr Kriz

## **The Future of Corporate Reporting – creating the dynamics for change**

Deloitte Touche Tohmatsu Limited welcomes FEE's contribution to the debate on the future of corporate reporting. We think it is timely to consider how changes to the structure of the economy, investor and societal expectations and technology should shape corporate reporting.

Rather than responding to the questions in your paper, we attach for your consideration a paper we are about to publish on corporate reporting. It covers many of the same topics and issues you raise. We hope that you find it helpful in informing your discussions.

If you have any questions about the matters raised in our paper, please contact me in London at +44 (0) 20 7007 0884.

Yours sincerely

Veronica Poole  
**Global IFRS Leader**
