Disclosure of comments:	EIOPA will make all comments available on its website, except where respondents specifically request that their comments remain confidential. Please indicate if your comments on this CP should be treated as confidential, by deleting the word Public in the column to the right and by inserting the word Confidential.	Public
<p>Please follow the instructions for filling in the template:</p> <ul style="list-style-type: none"> a Do not change the numbering in column "Reference". a Please fill in your comment in the relevant row. If you have <u>no comment</u> on a paragraph, keep the row <u>empty</u>. a Our IT tool does not allow processing of comments which do not refer to the specific paragraph numbers below. <ul style="list-style-type: none"> o If your comment refers to multiple paragraphs, please insert your comment at paragraph and mention in your comment to which other paragraphs this also applies. o If your comment refers to sub-bullets/sub-paragraphs, please indicate this in the itself. <p>Please send the completed template to Consultation_Set2@eiopa.europa.eu, in MSExcel Format, (our IT tool does not allow processing of any other formats).</p> <p>The paragraph numbers below correspond to Consultation Paper No. EIOPA-CP-14-052.</p>		
Reference	Comment	
General Comment	1) The extent of the reporting and disclosure requirements is still quite comprehensive. So, the question arises if the objective of more transparency can be achieved and supervision really will be enhanced given the enormous volume of the reporting and disclosure requirements. Moreover some of the requirements are already included in the delegated acts (e.g. Art. 10 and 11 on "means of disclosure" where a reference to the level 2-article 301 would have been sufficient).

Article 1		
Article 2	<p>For the sake of clarity, it may be helpful to specify in this article how reported figures should be rounded (for example, always rounded up, or rounded up if greater than or equal to 0.50, rounded down otherwise).</p> <p>We wonder if the requirement to report "at least four decimals" in case of data points with the data type 'percentage' is adequate. It seems to us to be an excessive requirement.</p>	
Article 3	<p>The specification in paragraph 4 of the source of the exchange rate to be used for the balance sheet may require insurers to retranslate balance sheet items compared to the exchange rate used for accounting purposes. This may add undue complexity into the reporting process compared to permitting the use of the closing exchange rate used under the insurer's applicable GAAP.</p>	
Article 4	<p>Presumably this article is not intended to require resubmission of reported information where information changes over time (i.e. resubmission is intended where the insurer discovers material errors in the information previously submitted). Automatic resubmission of data in all circumstances may be excessive - potentially insurers could be required to notify their supervisor of the errors identified, with reported information resubmitted at the request of the supervisor. We suggest that the same approach for adjusting and non-adjusting events is taken for accounting purposes.</p>	
Article 5	<p><u>par. 1 e)</u>: We understand that an insurer is required solely to disclose the SCR calculated on the calculation basis chosen in pillar 1 by the respective insurer. In order to avoid misunderstandings this should be clarified in the wording.</p>	

<p style="text-align: center;">Comments Template on EIOPA-CP-14-052 Draft proposal for ITS on the templates for the submission of information to the supervisory authorities</p>		<p style="text-align: center;">Deadline</p>
		<p style="text-align: center;">02.Mar.2015 23:59 CET</p>
Article 6	<p><u>par. 1 e)</u>: see comment on CP 55, Art. 4 par. 1 c) iii. and iv: We do not understand why the disclosure of premiums, claims and expenses for the lines of business mentioned in Art. 6 par. 1 e) iii. (e.g. medical expense, income protection, workers compensation and some other LoBs) follows a concept which differs from the concept followed for the LoBs mentioned in Art. 6 par. 1 e) iv. "all the other lines of business".</p>	
Article 7	<p><u>Simplifications allowed on quarterly reporting for individual undertakings</u>: According to our understanding the proportionality principle applies to all aspects of Solvency II; equivalently materiality applies at least to the whole SFCR (see the guidance in Art. 291 level 2-standards). We do not understand the restrictions to balance sheet information and technical provisions included here and question if this articles is needed at all.</p>	
Article 8	<p><u>par. 1 h)</u>: As regards the template about information on activity by country we wonder why only the recognition principles used in the statutory accounts are mentioned; we think that the valuation principles should also be included; alternatively we suggest to amend the wording in "...based on the undertakings statutory accounts...".</p>	
Article 9	<p>We understand that this article is provided to complement Art. 377 level 2-standards on intra-group transactions given that only group structures mentioned in Art. 213 par. 2 a-c), but not d) (mixed-activity insurance holding company as parent company) are covered by the level 2 article. Regardless, we do not understand why the article here refers to <i>very</i> significant intra-group transactions and not to significant ones as the Art. 377 level 2-standards does.</p>

Annex I - S.05.01 Individual entities	<p>It should be clarified as to how the reporting of reinsurers' share of expenses by category should be performed. In general insurers do not normally receive from reinsurer's an explicit share of administrative, investment management, claims management, and overhead expenses as separable items but would rather receive a ceding commission. Please clarify whether, in these circumstances the ceding commission should be reported in its entirety within the reinsurer's share of acquisition expenses or conversely whether there is any expectation that such amounts should be allocated across expense categories.</p>

<p>Annex I - S.23.01 Individual entities</p> <p>This version of this QRT applicable for quarterly reporting requires the SCR to be reported (R0580). However there is no requirement for the SCR to be calculated on a quarterly basis and Recital 88 to the Delegated Acts states "For the purposes of calculating the cap and the floor of the Minimum Capital Requirement referred to in Article 129(3) of Directive 2009/138/EC insurance and reinsurance undertakings should not be required to calculate a Solvency Capital Requirement on a quarterly basis. Where the calculation of the Minimum Capital Requirement does not coincide with an annual calculation of the Solvency Capital Requirement, undertakings should use the last calculated Solvency Capital Requirement in accordance with Article 102 of Directive 2009/138/EC." Any SCR reported on quarterly QRTs should be the last calculated Solvency Capital Requirement in accordance with Article 102 of Directive 2009/138/EC. There should be no requirement to update that calculation solely+ B142 for the purpose of quarterly reporting.</p>		02.Mar.2015 23:59 CET

Annex II - S.13.01 Individual entities		
Annex II - S.14.01 Individual entities	<p>The list of LoBs in scope includes Life reinsurance and Health reinsurance. However, EIOPA's feedback on several comments (no. 587, 597, 602, 612) on Consultation Paper 09 - EIOPA-CP-009/2011 clearly limited the scope to primary insurance. The requested information on distribution status of underlying policies (C0130), surrender values and annualised guaranteed rates are of little importance in reinsurance business which leads to data availability issues.</p>
